

TODAY

DOUG MCADAM will preside over the showing of "The Final Inch". Despite the title, the film has nothing to do with **DOUG's** hairline but chronicles the challenges health organizations and governments face during the final stages of polio eradication.

LAST WEEK

Kathleen Springer, Senior Curator for Geological Sciences at the County Museum, returned to give an updated program about why where we live is earthquake country (e.g. the "Mother Fault", the Pacific and North American Plates, etc.), the increasing likelihood of a major earthquake and the need for earthquake preparedness. "FPR" (Future Pile of Rubble) will be a sober addition to insurance lexicon that already includes "FFE" (Fire Following Earthquake).

NEXT WEEK

Group Study Exchange is the general topic so expect **Chair CAL BOOTHBY** and minions **KEVIN CORREIA, STEVE GUGGISBERG, BILL McCALMON, JOHN PRESTON** and **FLORIN ROMINU** to be conspicuously present.

MEMBER MUSINGS

Add **BOOTHBY**: If **CAL** moves a little stiffly at Noon Rotary's June 10th meeting the cause will be the effort he expended on the Victoria Country Club golf course Monday of that week. **CAL** is lucky **KEN STEIN** no longer is President since the golf outing is to benefit the Riverside YMCA.

Add golf: **Prez ALLAN** can go to town on **SCOTT PIERCE** if he isn't already paid up – **SCOTT** had a hole in one on May 15th.

LARRY WORMSER is always quick to shout out "Fifty!" when ever there is a question as to the fine amount – that same number would be appropriate should **Prez ALLAN** choose to recognize **LARRY** for his number of years of wedded bliss.

KEN STEIN, NEAL WANER and **LARRY BURGESS** had prominent roles in the YMCA of the East Valley's "An Evening of Thanks" last month. Should **Prez ALLAN** care to pursue this, **LARRY** confessed to a speaking honorarium of \$2,500 and witnesses included **BILL HATFIELD, PAT HOAG, HAROLD HILL** and **RON HELBRON**.

As much time as **MARK BULOT** has been spending in Dallas, it wouldn't be a surprise if he has become a fan of the Cowboys and Jerry Jones.

Stanford grad **DAVE MAUPIN** is still basking in a pleasant afterglow following Stanford's convincing win in the NCAA Men's Volleyball final.

Add Stanford: **DON McCUE** had high hopes when the Pomona-Pitzer Sagehens drew the Stanford Cardinal in the first round of the NCAA Women's Water Polo tournament but the top-ranked Cardinal gave the Sagehens the spanking that was expected.

ALLAN'S AVENUE

I mentioned it briefly last Thursday how honored and humbled our Club should be to have both the Man Of The Year and the recipient of the Roy Coble Service to Youth Award this year be a member of our Club! **NEAL** and **JIM**, you are perfect examples of what service clubs are all about, and obviously flag bearers for our service above self motto. As I have also recently mentioned, I have had the privilege of acknowledging several club members this past year for their achievements, many marking milestones in their lives, which not infrequently have benefited the lives of others as well as themselves. I would like to list those that I am aware of at this moment, but since I am afraid that I will inevitably miss someone, I hesitate to do that. Let me just note that my list reached close to a dozen, most of which have been recoded in our local news publications. In addition, we also know that multiple contributions are made on a regular and sustaining basis by everyone committed to the concept that giving back to our community is more than a pledge, it is a responsibility of good citizenship. And from what I have experienced this past year, our club understands that responsibility very well, as it has for 90 years. But regardless of **JIM NOLIN'S** success in the past, I find it hard for me to accept that goat kissing is the avenue to follow; of course it may depend on the goat. On the other hand, it is hard to argue with success (questions regarding the art of kissing goats need to be referred to Jim).
