He highlighted some of the recent accomplishments of the UofR and its students: seven Fullbright scholars in three years; five sports teams finished first in SCIAC in 2009-2010; an NCAA Div III swimming champ; school named one of 4 California universities designated a "Tree Campus" by National Arbor Day Committee; received a \$3million contribution from San Manuel Band of Mission Indians to endow a chair in Native American Studies; the largest ever incoming class; and, student government celebrating 100 years. He also previewed the UofR "Tour" video, written and produced by a recent alumn.

## MEMBER MUSINGS

How fair is it that **DON MCCUE** gets left behind while **LARRY BURGESS** and **NATHAN GONZALES** gallivant about our Nation's capitol? Perhaps the City fathers thought the more responsible of the triumvirate should be left in charge.

One wonders how **PAT MEYER** is doing on his annual quest to deplete the trout population of Big Bear Lake?

And how is **CAROLE BESWICK** enjoying the cooler climes of Colorado now that summer has arrived in Redlands?

## PRESIDENTS CORNER

August is almost over and I am just now reminding you that this is Membership month. **LARRY PYLE** and I will be attending a membership workshop this Sat. and hope to come back with some creative ideas. However, even though we want to continue to look for those perspective members please invite guests to join us for some great programs.

You may also want to mark your calendars for Jan. 12, 2011 when RI President Ray Klingensmith will be speaking in Menifee. I have heard him speak twice now and he is excellent, with a great sense of humor. January seems like a long way out but I am sure that reservations will fill up quickly. We will have flyers out as soon as they are available.
