

LAST WEEK

An engaging and sobering account from representatives of the Burn Center at San Bernardino County Hospital. It came as a great revelation to most in attendance that the number of burn accidents, particularly among young children, is more numerous than thought. Indeed, these patients have not only physical challenges to endure, but also psychological challenges from a society that is not always tolerant or tactful. That one of the speakers herself had experienced childhood burns and provided us an inspired account proved to be both poignant and courageous.

TODAY

LELANI KAHLE, repertory therapist from Loma Linda is here to tell about her experience with Rotary Group Exchange in Hungary. This program is among the most important that Rotary International supports, and we eagerly await her account.

NEXT WEEK

Presentation from the Municipal Water District.

HEARD ON THE STREET....

Two Sundays ago the *Redlands Daily Facts* included a picture of a travel group of high rollers holding up a copy of the local paper. Conspicuous amongst them was **ED MALESKY** and other distinguished Rotarians. Prez **PAM** may not have seen this article for its fining potential. These colleagues did not come forward voluntarily, so let this be the “rat out” for them in print! Did you know that **DAVE MAUPIN** recruits for the United States Navel Academy? He is desirous to give away \$300 K + college scholarships to future leaders of our country. Perhaps you know of a suitable candidate? And speaking of **DAVE** and his wife **ROBIN**, it was the editor’s pleasure to have hosted them at Smiley Library for a dinner they successfully bid for at the March Library Gala. They paid a handsome fee and one much needed for our book fund. Their guests included Rotary members **JERRY** and **BRENDA BEAN**, **RON** and **MOLLY BURGESS**, and **DELLITA** and **MIKE KOBOLD**. They enjoyed a gourmet dinner from **ROBERTO ARGENTINA’S** Farm Artisan Foods, and copious gulps of fine libations. All

in all the oil of conversation loosed lips and produced witty and joyous repartee. Shocking but true: **DON McCUE** but for \$250 could have been a guest on the field at the Galaxy game last Saturday. He could with a select group have watched his hero **LANDON DONOVAN** practice and then have a meet-and-greet with the revered local athletic hero post game. Well, he still has the \$250, but the soccer hero remains **DON’S** a holographic dream. Ask **CHRIS WALKER** about his trip to beautiful Indianapolis on behalf of his NCAA work. What’s going on in the governing of national athletics is interesting, and, he’s a direct participant. Don’t ask him about USC, it may rile **CAROLE BESWICK**....**SCOTT SHOWLER** is moving his law offices from Redlands to San Bernardino. **NEAL WANER** is on TV discussing the state of education locally and with implications of the State picture for financial support.

PRESIDENTS CORNER

It seems the year is already moving fast. Summer is officially over and kids are back in school. This week we have both elementary schools Breakfast and a Book program up and running and our school reps will be joining us. Univ. of Redlands students will also be returning to school this week as well.

We also have our planning committee for the Rotary Ride working hard to have a successful event that will operate on its own as a community ride. October should be a great time for an event with the fall weather. If you are interested in being a part of the planning committee contact **KEVIN CORREIA** or **LINDA SCHAUF**.

Have a great week.

Pam

Editor – **LARRY E. BURGESS** – No. 10 – 9/01/10
