

TODAY

Former Rotarian **GRAEME AUTON**, noted professor at that dear ol' U of R, will inform the Club about some topic having to do with international relations – potential thoughts could range from Korea to Israel to terrorism.

LAST WEEK

All the way from “down under” was **DR. ANDREW WROE**, an Assistant Professor of Radiation Medicine at Loma Linda University's School of Medicine. As a Medical Physicist he seeks to bring together physics, medicine, engineering, computer science and biology in developing advancements in radiation medicine. Amazingly, the Loma Linda Medical Center proton accelerator treatment facility sees between 130 and 220 patients per day. Nearly 70% of the patients are combating prostate cancer, with a remarkable rate of success. How fortunate the Inland empire is to have such cutting edge technology in our midst.

NEXT WEEK

CHRISTINE MEE will entertain the club with music to bring us even more holiday spirit.

ABOUT TOWN

Many thanks to **STAN WEISSER** and the numerous Rotarians who turned up Monday night to support Purple Turtles.

The ROTARY Winter Wonderland!! Thanks again to **BETTY AUTON-BECK** and her husband **GLENN** for hosting this year's holiday party. The night was a festive occasion by all accounts, and you certainly can't beat **BETTY'S** beautiful home and location. **SHIRLEY HARRY** and **CHERYL RIGGS** for bringing everyone together. Those who bet that the food, provided by **KEITH KASIN'S** Plymouth Village crew, would be comprised mainly of pureed vegetables lost their shirts – never bet against the house. And as a special treat, University of Redlands students from **JACK OSBORN'S** Rotaract club served spirituous beverages – with gratuities to support the fledgling club. Hey – where was **JACK**, anyway?

If your home staff is ever out for the evening, just invite **JEFF FRAZIER** over! Not only are he and his wife **PAULA** pleasant company, but **JEFF** does dishes, too.

LOOKING INTO THE ROTARY PROGRAM CRYSTAL BALL...

The last meeting of 2011 will feature craft talks by crafty Rotarians. After that it's ANYBODY'S guess! Say, who is ANYBODY, anyway?

Can you name this Rotarian? Clearly a commentary on **Prez RAY** when it's more fun to play Words with Friends anytime you're afraid a camp song might pop up...

PRESIDENTS MESSAGE

We welcome back a former member of our club today in **Graeme Auton**. **Graeme** is among the best of the University of Redlands faculty, and I know his program today will inform us all on the global political realities we face. It's great to have you back **Graeme**, thanks for taking the time to be with us.

Special thanks to **Shirley Harry** and **Cheryl Riggs** for the help with our holiday party, **Betty Auton Beck** and **Glenn** for hosting, and **Stan Weisser** and all the Rotarians who came out Monday for an excellent and fun Purple Turtles Dinner. It's been an especially great week to be a Redlands Rotarian.

We have 20 slots reserved to decorate the Rotary International Rose Parade Float on Wednesday, December 28. Our plan is to grab lunch as a group in Pasadena then head to the Rose Bowl to do some decorating. This is a fun way to spend an afternoon, please let me know if you are able to join us. Kids over 11 and spouses are welcomed and encouraged.

As always, thank you for your commitment to our club, our community, our nation and our world.

No. 23 – 12/15/11 – Editor Nathan D. Gonzales
